When making a claim under the warranty, kindly send us the XXL warranty certificate together with the original sales document/receipt and the defective tool.

Nürtingen, 10/14/12

General warranty conditions

Notwithstanding statutory requirements, Metabo provides warranty in accordance with the legislation of the customer's own country of residence, but in all cases for a minimum of 1 year, commencing from the date on which the machine is sold to the end user. The warranty covers defects in material and/or workmanship only. The repairs under warranty may only be carried out by authorised Metabo service centres. The warranty will not apply in cases of incorrect use (e.g. overloading of the machine or fitting nonapproved accessories), use of force, damage caused by external influences or foreign bodies (e.g. sand or stones), damage caused by nonobservance of the instructions for use (such as connection to an unsuitable mains supply or voltage or non-compliance with the installation instructions) and normal wear and tear. The warranty also does not cover machines, which have been partially or completely dismantled. The buyer is not authorised to assign his rights resulting from the Metabo warranty to third parties.

XXL warranty conditions

Metabo extends the warranty service as provided by the law for material and manufacturing defects voluntarily to 3 years, beginning from the date of purchase of the machine. You can make use of this warranty extension by registering your Metabo machine online within 4 weeks after your purchase. The registration can be effected by the specialist dealer and also by the buyer himself. At the end of the registration process you will be able to access your XXL warranty certificate. This certificate is the confirmation for your XXL warranty. When making a claim under the warranty, kindly send the XXL warranty certificate together with the original sales document/receipt and the defective tool to your Metabo service centre. The warranty extension is always machine-dependent, i.e. each purchased machine has to be registered as XXL machine. The buyer is not authorised to assign his rights resulting from the Metabo XXL warranty to third parties.

Privacy Policy

The processing (e.g. collection, transfer and use) of the personal data is exclusively for purposes of confirmation and processing of the XXL warranty or for possible product recalls. The data are stored on the server of a service provider in Germany who complies with the data protection laws. For this purpose a data transfer to the server of the responsible Metabo distribution subsidiary or the importer might be effected. If a dealer effects the registration on behalf of the customer, these data are also exchanged between the Metabo server and the dealer. The dealers, importers and distribution subsidiaries are obliged to comply with the processing of personal data in accordance with the law to comply with the relevant data protection standard of Germany or the target state. The buyer can withdraw his consent for the processing of his data online in the user account of the XXL warranty, by email to xxlsupport@metabo.de or writing to Metabowerke GmbH, D-72622 Nuertingen at any time. The data of the buyer are also deleted if only machines are registered on his name that are older than 3 years and which we assume to be no longer in use. This also applies if the buyer has not given his consent to use his data for marketing or survey-related purposes. In case of registration by the dealer on behalf of the buyer, the customer and machine data are deleted as soon as the data of the dealer are deleted.
